This towbar is designed to assembly in following cars: **NISSAN MICRA, 3/5 doors (K12),** produced since 02.2003, catalogue no. **V60** and is prepared to tow trailers max total weight **1300 kg** and max vertical load **75 kg**.

Torque settings for nuts and bolts (8,8):	
M 8 - 25 Nm	**M 10 -** 55 Nm
M 12 - 85 Nm	**M 14 -** 135 Nm

From manufacturer

Thank you for buying our product. Their reliability has been confirmed in many tests. Reliability of towbar depends also on correct assembly and right operation. For this reasons we kindly ask to read carefully this instruction and apply to hints.

The towbar should be install in points described by a car producer.

The instruction of the assembly

1. Disassemble the bumper.
2. Get lower the muffler – unfast from last handles.
3. Twist off plugs in chassis members (not used any more).
4. To the left chassis member slip side bracket (pos. 5) in this way, so holes with nuts agree with original holes. Fix loosely with bolts M10x30mm (pos. 8).
5. To the right chassis member slip side bracket (pos. 4) in this way, so holes with nuts agree with original holes. Fix loosely with bolts M10x30mm (pos. 8).
6. Between side brackets put main bar of the towbar (pos. 1) and fix by bolts M12x30mm (pos. 7). Attention! Cut out fragment of plastic profile acc. to figure no. 2
7. Tighten all bolts according to the torque shown in the table.
8. Reassemble the bumper after cut out fragment as shown in fig. 3.
9. Reassemble the muffler.
10. Fix tow-ball (pos. 2) and socket plate (pos. 3) by bolts M12x75mm (pos. 6) from accessories.
11. Connect electric wires of 7-pole socket according to the instruction of the car. (Recommend to make at authorized service station)
12. Complete paint layer damaged during installation.

Towing hitch (without electrical set)

Class: **A50-X** Cat. no. **V60**
Designed for:
Manufacturer: **NISSAN**
Model: **MICRA**
Type: **3/5 doors (K12)**
produced since 02.2003

Technical data:
D-value: **6,78 kN**
maximum trailer weight: **1300 kg**
maximum vertical cup load: **75 kg**

Approval number acc. to regulations EKG/ONZ 55.01: E20-55R-01 1515

Foreword

This towbar is designed according to rules of safety traffic regulations. The towing hitch is a safety component and can be install only by qualified personnel. Any alteration or conversion of the towing hitch is prohibited and would lead to cancellation of design certification. Remove insulating compound and underseal from vehicle (if present) in the area of the matting surfaces of the towing hitch.
The vehicle manufacturer's specifications regarding trailer load and max. vertical cup load are decisive for driving whereat values for the towing hitch cannot be exceeded.
D-value formula:

$$\frac{\text{Max trailer weight [kg]} \times \text{Max vehicle weight [kg]}}{\text{Max trailer weight [kg]} + \text{Max vehicle weight [kg]}} \times \frac{9{,}81}{1000} = D\ [\text{kN}]$$
